About

Check the status of your drive

Check for potential drive failures. It only takes a few seconds.

✔ SMART status passed.

Run Drive Status Check

Scan your drive

Quick Drive Test: Check for major performance problems. It usually takes two minutes or less.

✔ Quick Drive Test failed.

Run Quick Drive Test

Complete Drive Test: Run a full media scan to detect bad sectors. This scan may take several hours for high-capacity drives.

Run Complete Drive Test
